„Safe Harbors“

Communes that are against the death of migrants in the Mediterranean Sea and in favor of the decriminalization of distress rescue are defined as “Safe Harbors”.

They, for example, help taking up distressed people or take on sponsorships for distress rescue organizations.

A complete list of safe harbours can be found on their website

Places in Germany that are already verified as „safe harbors“

No more:

Deportation

Isolation

Looking away

Inhuman actions

Far more:

Freedom of movement

Solidarity

Open borders

Empathy

Why did we choose the „Seebrücke“?

- Their goal matches ours
- They operate in our city
 - Easy for us to get/stay in touch
- They are transparent with their work and financing
- They constantly update their website so we can stay aware of their work

Thank you for
your attention!
